MICROSOFT SQL SERVER COURSE CONTENTS

Microsoft® SQL Server®

EXCELPRINCE

Scope of SQL

SQL stands for Structured Query Language. SQL is used to communicate with a database.it is the standard language for relational database management systems. SQL Queries can be used to retrieve large amounts of records from a database quickly and efficiently. Using standard SQL it is easier to manage database systems without having to write substantial amount of code. By Learn SQL it will be easier for you to access and manipulate data in MySQL, SQL Server, Access, Oracle, Sybase, DB2, SAS and other database systems.

The Power BI training classes at Excelprince are truly exceptional. From the moment I enrolled, I was impressed by the well-structured curriculum that caters to both beginners and those with some prior knowledge. The instructors possess a remarkable ability to explain complex concepts in a clear and engaging manner, using real-world examples that made learning both practical and enjoyable.
What truly sets Excelprince apart is their hands-on approach. We weren't just passively listening to lectures; instead, we were actively working on projects and exercises that solidified our understanding of Power BI's features and capabilities. The individual attention provided by the trainers was also noteworthy. They were always available to answer questions, provide feedback, and ensure that every student grasped the material thoroughly.
The learning environment was conducive and supportive, fostering a collaborative atmosphere among the students. Moreover, the resources provided, including comprehensive notes and access to practice datasets, were invaluable for reinforcing what we learned in class.
Thanks to the training I received at Excelprince, I now feel confident in my ability to leverage Power BI for data analysis, visualization, and generating meaningful insights. This course has undoubtedly enhanced my skill set and opened up new opportunities in my career. I wholeheartedly recommend Excelprince's Power BI training classes to anyone looking to master this powerful business intelligence tool. It's an investment that will yield significant returns in your professional journey

Prince sir is just extraordinary in everything . I took power bi classes from him. I remember so many moments in your class, and they all evoke a sense of warmth and inspiration. His ability to not just impart knowledge, but to ignite a passion for learning, is truly remarkable. His dedication to teach extends beyond the curriculum; he has instilled in the importance of critical thinking, perseverance, and the pursuit of knowledge for its own sake.
Beyond the class his influence has been felt in countless other areas. In such a short period he has been a mentor, a guide, and a role model, and that's something I truly appreciate. His patience and understanding have made a world of difference, especially when facing challenges or seeking guidance.

One of my senior colleagues advised me to join Prince Sir classes for a better career because of my background, which is a B.A., and I never take any classes or do any courses, so I took classes on Saturday and Sunday. He will teach you on a basic level, and you will never get bored. If you do not understand any things or modules, he will help you out. You can ask any question related to the module or related to the classes, he will always give first preference to answering the question and then taking classes. He is a very nice and humble person, and most importantly, he speaks very politely and has patience. I really recommend joining the Prince Sir classes to develop your skills..

I would like to recommend #ExcelPrince to learn Power BI because he teaches in a way that a non technical, non-background person can also understand easily. He always makes sure that his each and every students understand the concept by giving the many real time examples. I learned the Excel VBA from him long ago which helped me to change my career. Now I have also attended the Power BI classes to clear my understanding which I wasn't able to do whilst watching many YouTube videos. Thank you Prince sir!!

My name is Navneet Sharma I am working professional as a data analysis
In the month of November 2022 i decided to add one more skill in my resume so i joined Excel price for Power Bi

I want to rate Excel Prince and want to share my personal experience as this course is almost over

Here are a few of the main advantages I experienced after enrolling in Excel prince classes.

:- Your ability to communicate clearly.
:- Your instructions were always easy to follow, and you provided clear explanations
:- Your complete commitment to class start times
: Good Lister
: Simple and reasonably fees are structured
:- Easily accessible after class.
:- Job-related assistance based on your
actual experience.
:- Actively sharing job opportunities.

Overall, I want to emphasize that your hard work and dedication are greatly appreciated, and I have no doubt that your students are benefiting greatly from your teaching style and knowledge.

100% satisfied Student.

It's rare that you come across standout Trainer like Prince. "Greatly efficient" we had the pleasure of being trained by him on Power BI overall. Appreciate Prince's ability to command a room and get people on board with ideas—even people who were initially on completely different pages. If you wish to make your foundation strong to learn BI (Power BI) tool, ExcelPrince is the best place to start with. Strongly recommended. Thanks!

Such a good person (prince sir) .
The way he teach us , the way he communicate and clear our doubts it's commendable..
And according to the 14 +years of experience in this teaching field that actually helped us in this MIS course journey ..
Here I will recommend u to connect with prince sethi sir..

Hello All,

ExcelPrice is place where you will get in-depth knowledge of the subject. I completed the Power BI course from ExcelPrince, and I must say this is best place to do Power BI course.
You will work on real time dashboards and covers more than 100 DAX functions, which will not only give hands on experience but also give you confidence.
Thank You Prince Sir for this learning experience and will definitely go for other courses in future.

I like the way prince sir teaches.
It is very simple and unique anyone can easily understand the way he teach.
Study material or content which he provides no one will provide that kind of content.
He will always clear your dobuts before going forward for the another topic.
I have searched and enquire a lot about other teachers also who are teaching power bi before joining prince sir and i feel lucky that i choose the best one.
Thank u prince once again.

I live in France, my friend suggested me to take the class I was afraid to attend online class .
But I wanted to learn Excel then I contact to Mr. Prince Sir by WhatsApp and he proper guided me .

So now I learned - EXCEL, VBA Macro ,Power Bi
May be in future I am going to learn some more .Because the way sir teach ,each and everything and he also provides Videos, recording, course content and he also clear many more queries during the class .its unbelievable.

I have full confidence now that yes we can also learn something online.

I would like to recommend everyone that please don't hesitate to contact Mr. Prince Sir.
Take the classes do what sir guides you because once your course would be completed you will see the difference inside of you and your confideance will also increase a lot 😊.

I started learning power bi from way too many sources however it was prince sir's content which get me the insight of each and every part of BI. The way sir shows a thing in excel and then in power BI is not only allow us to differentiate between the two but also enhances our excel knowledge to the highest level. Love the content and caurse material and also the teaching methodology.

I had to be back in my field after sabbatical, and i was doing lot of research and even join one of the trial classes for other institutes. But all was in vain, My sister recommended me Prince Sir classes. Earlier i was sceptical but once i spoke to him over phone and the way he spoke to me and explained things to me i then and there decided to go for his classes. The teaching methods were awesome. i knew what i wanted from my teacher and sufficient time was given to explain the concepts. Every lecture was well Organised and queries being raken care of. Prince Sir has been a grear Mentor and Teacher. I would recommend joining his class. You will not regret it and it would be a life changing opportunity.

This was my first time taking a remote class (Power BI) with "ExcelPrince", it was a new experience for me. I was not sure what to expect because the class was taught remotely but I am pretty impressed with the entire process. The instructor (Prince Sethi) was very professional, knowledgeable, and expert in this field and very clear in his method of teaching. All my questions were answered and the class interaction was excellent. I would definitely recommend "ExcelPrince" to my co-workers as well as friends. I look forward to taking more classes from "ExcelPrince".

Thank you once again Prince Sethi (ExcelPrince)

I am extremely thankful to have such a supportive cooperative trainer like you. Your way of teaching is outstanding, every query is solved clearly, be the student asks one time or multiple times the same question. The quality of training were excellent The best thing that I liked about your training was live class room videos through which we can never forget even after completion of course.. You make the classes interactive by using daily life scenarios and practical examples. Also, you never think of just completing the course and get rid of, like many similar institutes do. Your examples and assignments are very much similar to what is done in industry. Multiple times I come across such questions which I have done already while training, which boost my confidence more than my peers. Whenever I come across any challenges, in office work or regarding any new concept, I come back to you and surprisingly you take interest in that work and solve the queries. Other than the training contents, we can also discuss all the present technologies and you always guide us to choose the best in career. At last I just want to conclude that you are not just a good trainer but a guide and a very nice human being.
